

# Haunted Collector

Do you ever feel like the eyes of a portrait might be following you across the room? Or, did you notice that a pen has mysteriously shifted from the location you last placed it? Sure, it could be a coincidence...or it could be paranormal. Ghosts and spirits inhabit more than just homes and buildings - they can live in objects, too. This summer, **John Zaffis** and his family are on a mission to ease your suspicions.

**The Zaffis** family are renowned paranormal investigators, tracking down haunted items like paintings, guns, jewelry and dolls. Once identified, these obscure items are collected and stored in the family's museum, helping John's clients bring normalcy back to their lives.
